

WHS Policy Statement

1st Choice is committed to providing a safe and healthy working condition for its workers, visitors and sub-contractors for their operational activities for the office and for site visits; for the prevention of work-related injury and illness.

The Company has established OHS objectives for all our key areas and the review of performance versus the objectives is part of the Management Review.

An OHS System has been established in accordance with ISO 45001:2018 and the company is committed to comply with its procedures as well as and Legal and Other requirements. Our OHS System consists of policies, procedures, forms and records.

1st Choice is committed to the elimination of hazards, reduction of OHS risks as well as specific requirements relevant to the Context of the Organisation noted in Table 1 within its OHS Procedures Manual.

All workers and contractors must adhere to the requirements of this policy and our procedures, and are welcome to provide suggestions for improvement of the OHS System. 1st Choice will review these suggestions and support those that will bring about meaningful continual improvement to our QSE System.

1st Choice is also committed to continual improvement of its OHS System, through its operational and site activities, internal audits, corrective actions, Legal and Other requirements and the management review process.

This policy statement has been communicated and understood within our Organisation through its display in the Office/Workshop, availability on the company computer system and on customer site documentation and through the Policy agreement and induction process.

This policy has been made available to relevant interested parties via its availability on the 1st Choice website.

Pat Gibson
Managing Director
